**Location:** Virginia Beach, VA  
**Harry E Diezel Fire Training Center**

# Structural Collapse Specialist Rescue Squad Officer Course

Structural Collapse Specialist looking to lead and plan during structural collapse events can gain this experience during the Structural Collapse RSO course. Students will devote 8 days—80 hours of learning in classroom and practical settings. This will include role of a RSO, command, accountability, communications, and review of significant structural collapse events. You will gain experience with planning in completing ICS forms, reporting, rostering, and demobilization. Safety roles, responsibilities, and planning while performing risk assessments. Personal and team hygiene and hydration requirements are discussed. Logistical responsibilities are covered by a tour of the TF office and warehouse. Coordination with medical and search components as a RSO. This includes medical transport and equipment along with integrating into a Rescue Squad, K9 overview, and SARCOP.

Additional information regarding the course is available by contacting:

Richard Brown at 757-385-6683  
rlbrown@vbgov.com
